

Denver Seminary User Guide

Welcome to The DTL, [The Digital Theological Library](#). Here you have access to over 340,000 eBooks, over 160 databases and over 27 million journal articles! You can do a basic search through the home page search box. This will return eBooks and some articles. Not all journals are indexed at the article level.

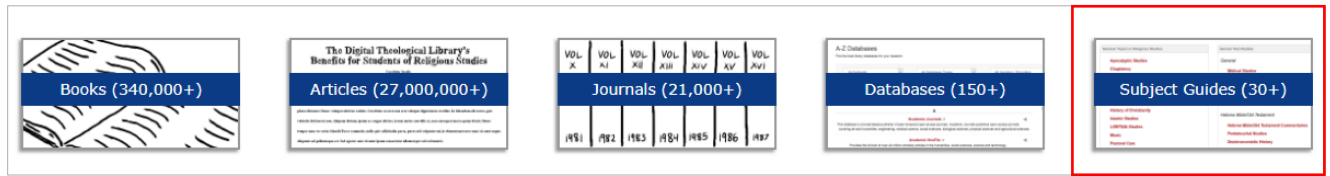

Clicking on Books, Articles, Journals or Databases limits your search to those parameters.

Advanced Search gives you multiple search term choices to better define results. It is best used when you have specific information such as the terms listed below.

Subject Guides includes resources that have been selected and organized by topic.

Subject Guides

The DTL's subject guides provide an introduction to different topics in and related to religious studies by giving access to classic and breaking edge scholarship and linking to relevant databases.

If a book has **(FORTHCOMING)** next to it, it means that the book has been ordered and that it will be added to the DTL as soon as possible.
